BG-001	Check if user can give input of a very large username during the registration process	User Registration / Sign Up	TC-0025	1. Enter a very large First Name 2. Enter a very large Last Name 3. Input other informations 4. Click the Sign Up button	Give input like (aaaaaa..... up to 200 characters) in the Name Field	1. A warning message after a certain length of Input 2. Show realtime input lenth in comparison to maximum allowed length	1. The very large inputs ar being taken 2. No warning message is shown	Medium	Low	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Mamunur Rahman	Mamunur Rahman	Link
BG-002	Check if user can give input of a non-existing email address while signing up	User Registration / Sign Up	TC-0028	1. Enter a non-existing email in the Email field 2. Fill other information 3. Click the Sign Up Button	Name : Mukit Mahdin Email : mukitonekshei@gmail.com Pass : mukit123	1. An error message showing no such mail address exists	User is able to sign up even after giving the non-existing email address	High	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Mamunur Rahman	Mukit Mahdin	Link
BG-003	Check if user can give weak or easy to crack passwords wile signing up	User Registration / Sign Up	TC-0016	1. Fill othe information 2. Give a very weak password. 3. Click the Sign Up Button	Give Password as qwerty, asdf, 123	1. An error/warning message showing the message that the password is not strong enough	No error/warning is shown	High	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	A Z Hasnain Kabir	Mukit Mahdin	Link
BG-004	Check if user can see the real-time strength of their password	User Registration/Sign Up	TC-0018	1. Fill the password Input Field	Name : Mukit Mahdin Email : mukit@gmail.com Pass : mukit123	1. Real-time password strength is showing in categories like Weak, Strong, Medium etc	There is no real time strength display of the password	High	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-005	Check if the user can see the password what he is giving	User Registration/Sign Up	TC-0009	1. Fill the password Input Field	Name : Mukit Mahdin Email : mukit@gmail.com Pass : mukit123	1. User can see the password by clicking the Show Password Option	No Show Password Option is there	Medium	High	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-006	Check whether a confirmation message/popup is shown to user after a successful signup before redirecting to the login page	User Registration/Sign Up	TC-0010	1. Fill all necessary field in the sign up form with valid input 2. Click Sign Up button	Name : Mukit Mahdin Email : mukit@gmail.com Pass : mukit123	1. User will see a confirmation message after successful signup	No Confirmation message is shown before redirecting to the login page	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Muazul Islam	Muazul Islam	Link
BG-007	Check whether an input field is getting highlighted if any wrong input is given in that input field	User Registration/Sign Up Log In	TC-0011	1. Fill all necessary field in the sign up form with some valid input and some invalid input 2. Click Sign Up or Log In button	Name : %8&RHWOER\$\$ Email : mukit\$gmail.com Pass : mukit123	1. The particular input field which got the invalid input will be highlighted with diiferent color in the border and error message below that input field	All error message are shown in a generic way in the bottom of the sign up button	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Mamunur Rahman	Mukit Mahdin	Link
BG-008	Check whether the user is getting a loading screen when User registration is taking time for the network issue or other database issues	User Registration/Sign Up	TC-0013	1. Fill all necessary field in the sign up form with valid input 2. Click Sign Up button	Name : Mukit Mahdin Email : mukit@gmail.com Pass : mukit123	1. A loading screen showing message like "Hold On, the registration process is ongoing"	No Loading Screen after clicking the Sign Up button	Low	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-009	Check whether user is getting interactive feedback while hovering over any input field or any button	User Registration/Sign Up Log In	TC-0031	1. Hover over any input field or button	Hover	1. Transition or Color Changing Effect if a user hovers over input fields or button	No hover effect is there	Low	Low	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	A Z Hasnain Kabir	Mukit Mahdin	Link
BG-010	Check whether the Reset password module is user friendly	Reset Password	TC-0042	1. Click the forget password option in the Login Screen		1. There will be email input in the same login page to get the password reset mail on that mail	After Clicking, another page is getting opened to enter mail to get reset the link	Medium	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Mamunur Rahman	Mamunur Rahman	Link
BG-011	Check whether the user can give invalid/unregistered email input in the Reset Password's Email field	Reset Password	TC-0044	1. Click the forget password option in the Login Screen 2. Give an invalid email as input	Email : mukitonekshei@gmail.com	1. Error Message will be shown upon giving invalid /unregistered email	No Error Message is shown, just a freezed screen, and then backend crashed	High	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Muazul Islam	Muazul Islam	Link
BG-012	Check whether the the new password strength is checked while resetting password using the Password Reset Link	Reset Password	TC-0045	1. Click the Password Reset Link from the received email 2. Give weak password as input 3. Enter Reset Password Button	Password : qwerty, 123	1. An error/warning message showing the message that the password is not strong enough	No error/warning is shown	High	High	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Nibir Kabir	Mamunur Rahman	Link
BG-013	Check whether an confirmation message is shown after successful password reset and before redirecting to Login Page	Reset Password	TC-0048	1. Click the Password Reset Link from the received email 2. Give password as input 3. Enter Reset Password Button	Password : Abc123_\$	1. User will see a confirmation message after successful password Reset	No Confirmation message is shown before redirecting to the login page	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Mukit Mahdin	Mukit Mahdin	Link
BG-014	Check whether the user's given formatting (like line break, bullet point) of the Event Description is preserved while displaying that event after posting	Eco Events Posting	TC-0069	1. Fill Up all Required Input Field with valid input 2. In the Event Description option give some line break, bullet points	Event Description : This is the Event 1. Good Event 2. Nice Event 3. Shera Event	1. The Formatting is preserved while displaying the posted events	This is the Event 1. Good Event 2. Nice Event3. Shera Event (the formatting is not preserved)	High	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-015	Check whether the user can give invalid files in the image input field	Eco Events Posting	TC-0071	1. Fill Up all Required Input Field with valid input 2. In the image input field give a random pdf or pptx file	Event Image : random.pdf	1. A warning message will show mentioning the supported file formats	No warning message is shown	High	High	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mukit Mahdin	Mamunur Rahman	Muazul Islam	Link
BG-016	Check if user can update profile information	User Profile Update	TC-1001	1.Log in to the application. 2.Navigate to the "Profile" section. 3.Attempt to change the user's bio information. 4.Save Button	Username: johndoe Bio Information: "I love hiking and photography."	The user's bio information is updated, and the changes are reflected in the user profile.	The user's bio information is updated, and the changes are reflected in the user profile.	High	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	Muazul Islam	Mukit Mahdin	Link

Bug ID	Module	Related Requirement	Test Case ID	Reproduction Path	Test Data	Expected Result	Actual Result	Severity	Priority	Status	Test Environment	Bug Reported by	Test Case Author	Executed By	Attachment
BG-017	Check if user upload profile picture	User Profile Update	TC-1010	1.Log in to the application. 2.Navigate to the "Profile" section. 3.Upload a new profile picture. 4.Save changes.	Image file: profilepic.jpg	Profile picture is updated.	Profile picture is not displayed or remains the same.	High	High	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	Muazul Islam	Link
BG-018	Check if user can change password	User Profile Update	TC-1011	1.Log in to the application. 2.Navigate to the "Profile" section. 3.Go to the "Change Password" section. 4.Enter the old password and set a new one. 5.Save changes.	Old Password: Oldpass@123 New Password: Newpass@456	Password is reset	Password is not updated	Medium	Medium	Reopened	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	Muazul Islam	Link
BG-019	Check is user can reset with a strong password (one unique letter) (Starting with Capital letter) (Minimum 8 letters)	User Profile Password Reset	TC- 1020	1.Log in to the application. 2.Navigate to the "Profile" section. 3.Go to the "Change Password" section. 4.Enter the old password and set a new one. 5.Save changes.	Old Password: Oldpass@123 New Password: pass123	Warning message to give strong password and password is not updated	Password is updated	Low	Low	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	Mamunur Rahman	Link
BG-020	Check if user can view other user's profile through a link	User Profile View	TC-1015	1.Log in to the application. 2.Click on other user's profile link	N/A	Redirect to correct User Profile	Redirect to wrong user Profile	Medium	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	Muazul Islam	Mukit Mahdin	Link
BG-021	Check if user Profile Loads within an acceptable timeframe	User Profile Section	TC-1023	1.Log in to the application. 2.Navigate to the "Profile" section.	N/A	Profile loads within an acceptable time frame	Slow loading times for the user profile	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	Muazul Islam	Mukit Mahdin	Link
BG-022	Check if user can search for specefic community	Community Section	TC -0078	1.Log in to the application. 2.Navigate to the "Community" section. 3.Seach for specefic community in search bar.	Search Bar: Green Earth	Redirects to Green earth community	Redirects to wrong community	High	High	Retest	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-023	Check if user can update their post in a specefic community	Community "post" Section	TC -0167	1.Log in to the application. 2.Navigate to the "Community" section. 3.Navigate to "My Post" 4.Update post 5.Save	Content:"Nice Scenery"	Post is updated	Post is not Updated	High	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-024	Check that a user cannot delete other's post	Community "post" Section	TC-0200	1.Log in to the application. 2.Navigate to the "Community" section. 3.Navigate to "Post" 4.Delete post 5.Save	N/A	Post should not be deleted	Post is deleted	High	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	Muazul Islam	Muazul Islam	Link
BG-025	Check that a user cannot post a "post" in a community he is not part of	Community "post" Section	TC-0201	1.Log in to the application. 2.Navigate to the "Community" section. 3.Navigate to "Post" 4.Create post 5.Save	Content:"Nice Scenery"	Post should not be created	Post is created	Medium	Low	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	Muazul Islam	Muazul Islam	Link
BG-026	Check if notification is sent if there is any update in a community	Home Page	TC-1102	1.Log in to the application	N/A	Notification should pop-up	no notification is given	Low	Medium	Reopened	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	Mukit Mahdin	Link
BG-027	Check if user can send message to other user	Message Section	TC-1103	1.Log in to the application. 2.Navigate to the "Inbox" section. 3.Send message	Mesage:"Hii"	Meesage should be sent	Message is not sent	High	High	Retest	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	Muazul Islam	Muazul Islam	Link
BG-028	Check if message comes in real time	Message Section	TC-1110	1.Log in to the application. 2.Navigate to the "Inbox" section.	N/A	Inbox should be updated with new message	Inbox is not updated, needs to reload the application	Medium	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Mamunur Rahman	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-029	Posting something to the community	User registration, login and community join	TC-2001	1. Log in to the application 2. Navigate to communities 3. Joining a community if not joined 4. Post something to the community	Content: Something	Should create a post to the community	Sometimes the post wotks and sometimes it doesn't	High	High	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	A Z Hasnain Kabir	A Z Hasnain Kabir	Link
BG-030	Commenting to the community	User registration, login and community join	TC-2002	1. Log in to the application 2. Navigate to communities 3. Joining a community if not joined 4. Commenting something to the community	Comment: Hello	Should comment to a post of the community	Takes a while for the comment to appear	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link

Bug ID	Module	Related Requirement	Test Case ID	Reproduction Path	Test Data	Expected Result	Actual Result	Severity	Priority	Status	Test Environment	Bug Reported by	Test Case Author	Executed By	Attachment
BG-031	Community Interaction	User engagement in communities	TC-2003	1. Log in to the application 2. Navigate to a community 3. Attempt to like a community post	Test Data: User ID: 12345, Post ID: 67890	The like count for the post should increase, and the user's like should be registered.	The like count does not change, and the user's like is not registered.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-032	Community Moderation	Ensuring community content quality	TC-2004	1. Log in to the application as a moderator 2. Navigate to a community post with inappropriate content 3. Attempt to remove the post	Post ID: 67891	The post should be removed from the community.	The post remains visible despite the removal attempt.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-033	Community Notifications	Keeping users informed about community activity	TC-2005	1. Log in to the application 2. Ensure notifications are enabled 3. Wait for a new community post to trigger a notification		A notification should appear for the new community post.	No notification is received for the new post.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-034	Community Search	Facilitating post discovery within communities	TC-2006	1. Log in to the application 2. Enter specific keywords into the community search bar	Search Query: "technology"	Relevant community posts containing the keyword "technology" should be displayed.	The search results do not accurately reflect the entered keywords.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-035	Community Sharing	Facilitating post sharing within communities	TC-2007	1. Log in to the application 2. Attempt to share a community post to an external platform	Post ID: 24680, External Platform: Twitter	The post should be successfully shared to the specified external platform.	The post sharing process fails, and an error message is displayed.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-036	Community Visibility	Managing post visibility within communities	TC-2008	1. Log in to the application as a community admin 2. Attempt to hide a specific community post from the community feed	Post ID: 13579	The post should no longer be visible in the community feed for regular users.	The post remains visible despite the admin's attempt to hide it.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-037	Community Tagging	Categorizing posts within communities	TC-2009	1. Log in to the application 2. Create a new community post and assign relevant tags	Post Content: "New project update", Tags: "project", "update"	The post should be tagged with the specified keywords for easy categorization.	The assigned tags do not appear with the post, or incorrect tags are displayed.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-038	Community Filtering	Allowing users to filter community posts	TC-2010	1. Log in to the application 2. Apply specific filters to the community post feed (e.g., by date, category)	Filter Criteria: Date Range - Last 7 days, Category - "Announcements"	The community post feed should display only posts that match the applied filters.	The applied filters do not affect the displayed posts, or the filtering process malfunctions.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-039	Community Notifications	Allowing users to customize notification settings	TC-2011	1. Log in to the application 2. Navigate to the notification settings page 3. Attempt to customize notification preferences	Notification Preferences: Turn off email notifications for community posts	The selected notification preferences should be saved and applied to future notifications.	The selected notification preferences are not saved, or the changes do not take effect.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-040	Community Moderation	Allowing users to report inappropriate content	TC-2012	1. Log in to the application 2. Navigate to a community post with inappropriate content 3. Attempt to report the post	Post ID: 86420, Report Reason: "Contains hate speech"	The reported post should be flagged for review by a moderator.	The report function does not work, or the reported post is not flagged for review.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-041	Community Interaction	Allowing users to follow specific community posts	TC-2013	1. Log in to the application 2. Navigate to a community post 3. Attempt to follow the post for future updates	Post ID: 75310	The user should receive notifications for future updates to the followed post.	The follow function does not work, or the user does not receive notifications for future updates.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-042	Community Moderation	Allowing moderators to ban users from communities	TC-2014	1. Log in to the application as a community moderator 2. Navigate to a community post 3. Attempt to ban a user who has violated community guidelines	User ID: 24601, Ban Reason: "Repeatedly posting spam"	The banned user should be prevented from accessing the community and its posts.	The ban function does not work, or the banned user is still able to access the community and its posts.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-043	Community Moderation	Allowing moderators to delete inappropriate posts	TC-2015	1. Log in to the application as a community moderator 2. Navigate to a community post with inappropriate content 3. Attempt to delete the post	Post ID: 97531	The inappropriate post should be deleted from the community feed.	The delete function does not work, or the post remains visible in the community feed.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-044	Community Interaction	Allowing users to comment on community posts	TC-2016	1. Log in to the application 2. Navigate to a community post 3. Attempt to leave a comment on the post	Post ID: 86420, Comment Content: "Great post!"	The comment should be successfully posted and visible to other users.	The comment function does not work, or the comment is not visible to other users.	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	A Z Hasnain Kabir	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-045	Check whether the event that has already ended is shown in user's profile page.	Eco Events Posting	TC-2032	1. Login to the application 2. Create an event that will take place after some time 3. Login as another user and assign interest in that event 4. After the event time is finished check the home page of the interested user and see the events	Give event time that will start and end very after some time	The event will not be shown in upcoming events	The event will not be shown in the upcoming events	High	High	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Muazul Islam	Muazul Islam	Link
BG-046	Check if a user can create an event in the past	Eco Events Posting	TC-1950	1. Login to the application as a user 2. Create an event with the date in the past	The event date should be in the past	The event should not be created and should show a popup with invalid input	The user can create the event	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	A Z Hasnain Kabir	Muazul Islam	Link

Bug ID	Module	Related Requirement	Test Case ID	Reproduction Path	Test Data	Expected Result	Actual Result	Severity	Priority	Status	Test Environment	Bug Reported by	Test Case Author	Executed By	Attachment
BG-047	Check if the user can upload many files of different types while submitting the event	Eco Events Posting	TC-1986	1. Login to the application as a user 2. Create an event and upload many files of different formats for the event	There should be .pptx, .pdf and .jpg files	All the files should be uploaded	Only the last uploaded file is present	High	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mamunur Rahman	Muazul Islam	Link
BG-048	Check if the user is notified at the day of the event	Eco Events Posting	TC-2048	1. Login to the application as a user 2. Register for an event 3. Check if the user gets notified at the day of the event	N/A	The user should receive notification at the day of the event.	The user do not get any notification	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mukit Mahdin	A Z Hasnain Kabir	Link
BG-049	Check if the user receives notification for any update of the registered event	Eco Events Posting	TC-2030	1. Login to the application as a user 2. Register for an event 3. Login as the creator of that event 4. Make updates	1. Give posts in the event 2. Upload files 3. Edit posts and comments	The user should receive notification for each update of the event	The user do not get any notification	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	A Z Hasnain Kabir	Mamunur Rahman	Link
BG-050	Check if the events appear sorted in the users home page	Eco Events Posting	TC-2019	1. Login to the applicatoin as a user 2. Get interested and registered in some events	1. Get interested in events that happen in the same day as well as different days	The events should appear ordered with the nearest event coming first	The events appear randomly	Low	Low	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mamunur Rahman	Mamunur Rahman	Link
BG-051	Check if the user does not receive any notification if he unregisters for an event	Eco Events Posting	TC-2011	1. Login to the applicaton as a user 2. Unregister for some events	1. Test with unregistering multiple events	User should not receive any notification for that event	User still receives notification	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mukit Mahdin	Mukit Mahdin	Link
BG-052	Check if the comments in the posts can be recursively replied	Eco Events Posting	TC-2009	1. Comment on any event's post 2. Reply to that comment 3. Reply to the second comment	1. Try with multiple accounts as well as same accounts 2. Recursively comment for at least 10 times	Comments should be shown recursively	All the replies belong to the same first comment	Medium	Medium	Reopened	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mamunur Rahman	A Z Hasnain Kabir	Link
BG-053	Check if a popup is shown if the user registers or interests for an event	Eco Events Posting	TC-2010	1. Register for an event 2. Get interested for an event	N/A	A popup appears showing the success or failure of registration	No popup is shown	Low	Low	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mukit Mahdin	A Z Hasnain Kabir	Link
BG-054	Check if the user receives email at the day of registered events	Eco Events Posting	TC-2012	1. Register for an event 2. Check the mail at the event day	N/A	Email comes notifying the event	Sometimes email comes, sometimes does not	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	A Z Hasnain Kabir	Mukit Mahdin	Link
BG-055	Check if the user cannot access the event if he is blocked by the creator of the event	Eco Events Posting	TC-2033	1. Block a user from the event 2. Check the blocked user's profile	1. Update the event	User should not get any notificaion and cannot access event page	User receives notification	Low	Low	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mamunur Rahman	Mamunur Rahman	Link
BG-056	Check if the user can see the people interested and going in the events	Eco Events Posting	TC-2051	1. Register for an event from many user 2. Get interested for an event from many user 3. Check the event page from a user's account	N/A	User should see all the people interested and going	User does not see any people interested or going	Low	Low	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mukit Mahdin	Mukit Mahdin	Link
BG-057	Check if the user gets recommendation for the spaces that he has interests	Eco Events Posting	TC-2066	1. Get interested in many spaces 2. Create many events in all spaces	Create events in the spaces that he has interest as well as spaces that he does not	User should only receive recommendation for the spaces he has interests	User gets recommendation for all spaces	Medium	Medium	Assigned	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	A Z Hasnain Kabir	Mamunur Rahman	Link
BG-058	Check if the user gets recommendation for events that are highly rated	Eco Events Posting	TC-2085	1. Create events and make them highly rated 2. Get interested in that space from a user	N/A	User should be recommended the highest rated event first	User gets recommended randomly	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mukit Mahdin	A Z Hasnain Kabir	Link
BG-059	Check if the ended events are recommended to the users	Eco Events Posting	TC-2090	1. Get interested to spaces that have events that are ended	1. Create events that will start and end after some time 2. Also create events that have not started and has started but will end later	User should be recommended only for the events that have not ended yet	User is recommend about all events including the ended ones	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mukit Mahdin	A Z Hasnain Kabir	Link
BG-060	Check whether the event posts are appeared in a sorted order	Eco Events Posting	TC-2095	1. Create many posts for an event	1. Create posts with slightly different time difference as well as huge time difference	User should see the posts based on the creation time order	User sees the posts randomly	Medium	Medium	Fixed	Platform : Windows Device : Laptop Database : MongoDB Host : Localhost Testing Framework : MochaJs	Muazul Islam	Mamunur Rahman	A Z Hasnain Kabir	Link
